

PFT Health and Welfare Fund Educational Issues Department Presents...

Tools for Research, Student Questioning, Analysis, and Discovery:

INVESTIGATING HAPPINESS

Presented by Heather Zajdel and LeeAnne Fox-Jones
Professional Development Leaders

Earn 3 Act 48 Hours!

DATES: February 25th and
March 4, 2021

TIME: 4:00—5:30 p.m.

Our students are relying on social media to find happiness. It's not working. Join us for a research-based roadmap to help your students identify and pursue what really makes them happy.

We'll be talking about how to:

Collect and analyze happiness data ⚙ Discover misconceptions about happiness ⚙
Navigate the highs and lows of social media ⚙ Contextualize stressors ⚙ Plan and
evaluate a personal happiness strategy ⚙ Ensure happiness-related lessons
are relevant to your content area.

Take away new learning activities, graphic organizers, and guidance on immediate classroom implementation!

As happiness is applicable to every grade and subject area, all Pennsylvania educators are welcome. This session is specifically tailored to teachers of grades 3-8.
